

MATERIAL SAFETY DATA SHEET

Identification:	Immulex Streptococcus group kit (serotype A, B, C, D, F, G, L)
Manufacturer name:	SSI Diagnostica A/S Herredsvejen 2 DK-3400 Hillerød Denmark Tel.: +45 4829 9178 Fax.: +45 4829 9179 info@ssidiagnostica.com
Hazard identification:	Sodium nitrite 2 M (reagent 1) is classified as hazardous.  H302: Harmful if swallowed. Safety data sheet available: http://www.ssidiagnostica.com/downloads/material-safety-data-sheets/
Composition/information on ingredients:	<ol style="list-style-type: none">1) Latex particles coated with purified streptococcus antiserum (preserved with sodium azide 0.0975%).2) Reagent 1: Sodium nitrite 2 M3) Reagent 2: Acetic acid 0,4 M4) Reagent 3: Sodium hydroxide 0,1 N
First-aid measures:	With reference to safety datasheets for Sodium nitrite 2 M.
Accidental release measures:	With reference to safety datasheets for Sodium nitrite 2 M.
Handling and storage:	Store at 2-8 °C.

Exposure controls/personal protection:	With reference to safety datasheets for Sodium nitrite 2 M.
Physical and chemical properties:	Soluble in water and saline.
Stability and reactivity:	Stable.
Toxicological information:	With reference to safety datasheets for Sodium nitrite 2 M.
Ecological information:	With reference to safety datasheets for Sodium nitrite 2 M.
Disposal considerations:	Clean with water or ethanol and dispose as other laboratory material.
Transport information:	With reference to safety datasheets for Sodium nitrite 2 M.
Regulatory information:	None.
Other information:	None.
